

Introducing

Tush Pro

“Shopping with a smile!”

TARGET MARKET:

- Young Parents
- Children one to four years of age

FEATURES:

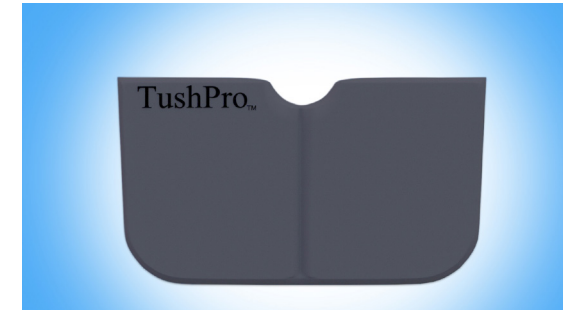

- EVA Foam
- Cleaned with wipes
- Composite fabric

PATENT INFORMATION:

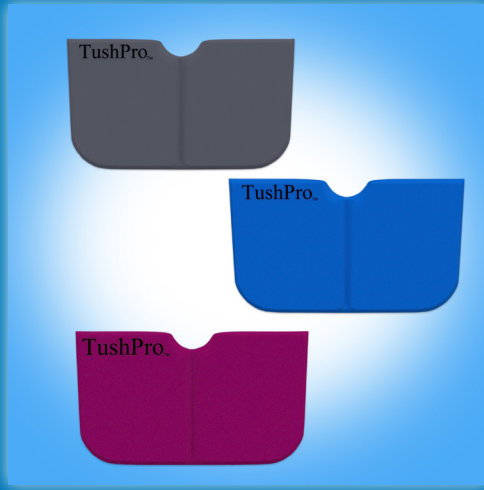

Patent pending.

SUMMARY:

Tush Pro is a groundbreaking innovation that presents technology relating to the shopping cart seat cushion. The overall concept is that it can enhance the comfort and safety of the typical child seat inside shopping carts. Just imagine you are doing your weekly shopping at your local supermarket with your child, and as soon as you put him inside the shopping cart, he immediately started crying. The built-in seat inside the cart is too hard and cold for the young body to handle. It's just uncomfortable. No one should sit in such a tough plastic seat.

With Tush Pro, our product will provide a soft but firm pad for your child's enjoyment. The Tush Pro is made from EVA foam with compostable fabric. The cushion is particularly well-suited for a child, and more specifically, a child between the ages of one and four years old. The best of all the foams in every Tush Pro is formamide free. So why not go and buy Tush Pro at your favorite stores and make your special child happy while you shop.

About the Developer

Ray Foster from Fostoria, OH, thought of an innovative shopping cart seat cushion while shopping at supermarket. Ray contacted the Mars Rising Network and had a provisional and design patent application filed and had the invention designed properly so that he may see success with this great idea and turn it into a real product. He is actively seeking a company that would have an interest in licensing the product for a royalty. Working with Mars Rising Network, this essential new design concept was refined and prepared to be presented as a commercial product. He actively seeking a company that would have an interest in partnering with him to get this patent pending product into the marketplace.
